The company was founded in 1910 as part of Nippon Chikuonki Shokai (Japan Recorders Corporation), a manufacturer of one-way disc recordings and gramophones. The company was originally called Nippon 'DENKI ONKYO Kabushikigaisha', which was shortened to the name DEN-ON in Japanese. The company is actively engaged in the production of sound systems and electrical appliances. Later the company merged with other related companies and as a result the name of the company became Denon. There followed a series of mergers and tie-and-tie over the next few decades, as first the company merged with Japan and U.S. Recorders Manufacturing in 1912, and then in 1928 the Columbia brand was introduced when the company became Japan Columbia Recorders. A further name change occurred in 1946, when the company renamed itself Nippon Columbia. The Denon brand was founded in 1947 when Nippon Columbia merged with Japan's Denki Onkyo. DSM Holdings Inc. was established in May 2002, when Denon Ltd and Marantz Japan Inc. merged on March 1, 2017, and Sound United Ltd. completed its acquisition of DSM Holdings. Today, the company specializes in professional and consumer home movies and audio equipment including A/V receivers, Blu-ray players, tuners, headphones and wireless music systems. Denon is also known for high-end A/V receivers and moving cartridges for phonograph coils. Two M-series models, the Denon M31 and the M30, were the most successful hi-fi radios in the mid-2000s. Since the launch of the micro hi-fi DAB, they have received several awards in Europe. 1910 Manufacturer of one-way recordings of discs and gramophones. 1939 Launched the first professional disc recorder for the industry broadcasting and cutting discs. 1951 Sales of Japan's first LP records began. 1953 A professional tape recorder for the broadcasting industry was launched. 1958 Introduced sales of stereo recordings. 1959 Production of open-reel audio cassettes began. 1962 Introduced a series of electronic pianos 1963 Developed DL-103 FON-103 cartridge. 1964 Audio cassette sales began. 1971 Started producing hi-fi audio components, including turntables, tuners and speakers. 1972 Introduced the world's first viable Channel 8 digital recorder. 1977 was awarded the Billboard USA Trend-Setter Award for Outstanding Contribution to the Industry. 1980 he was awarded the 13th Montreux International Diploma Award. 1981 Developed a professional CD player. 1984 Unveiled cd-ROM format. 1988 Introduced an assortment of AV amps in the range of products. 1990 Awarded three components of the award at the Paris hi-fi show.
